Explore each room of a school to see what you could do to make it eco-friendly. Part of a series that includes the following:

- [The Eco-Family's Guide to Living Green](#)
- [The Eco-Neighbor's Guide to a Green Community](#)
- [The Eco-Shopper's Guide to Buying Green](#)

#### **Recyclo-gami: 40 Crafts to Make Your Friends Green With Envy!**

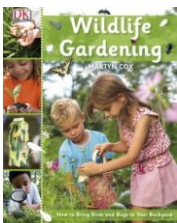

By: Laurie Goldrich Wolf

The ultimate in craft ideas to reuse old household objects!

#### **Up We Grow! a Year in the Life of a Small, Local Farm** By: Deborah Hodge

Good introduction for younger children to the seasonal cycle of growing food and raising animals.

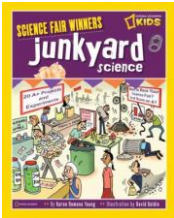

#### **Wildlife Gardening** By: Martyn Cox

Everything you wanted to know about planting trees, composting, creating wildlife gardens, and more!

#### **Recycling, Step by Step** By: Jean M. Lundquist

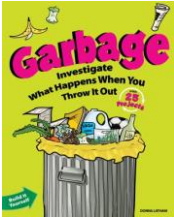

What happens after you put that bottle in the recycling bin? Go behind the scenes of how our trash is recycled.

## **Junkyard Science : 20 Projects and Experiments about Junk, Garbage, Waste, Things We Don't Need Anymore, and Ways to Recycle or Reuse it**

By: Karen Romano Young

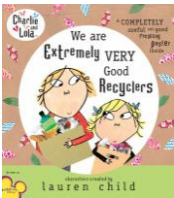

The title says it all! Wow your teachers and fellow students at your next science fair with a project from this book.

## **Garbage: Investigate What Happens When you Throw it Out with 25 Projects**

By: Donna Latham

Prompts readers to think about the choices they make that generate garbage, looks at ways to reduce, reuse, and recycle, discusses the history of garbage, and includes twenty-five projects.

## **We are Extremely Very Good Recyclers** By: Lauren Child

Lola enlists her classmates in trying to win a recycling competition in which the prize is a live tree to plant.

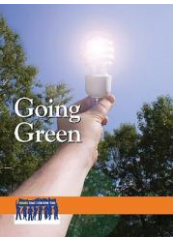

### **For Teens:**

## **The Green Teen: the Eco-friendly Teen's Guide to Saving the Planet**

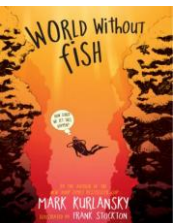

By: Jenn Savedge

Learn how to make all aspects of your life more eco-friendly.

## **Going Green** Edited By: Peggy Daniels Becker

Read essays on both sides of the green issue on topics such as global warming, recycling, and local foods so you can make their own informed choices.

## **World Without Fish: How Could We Let This happen?** By: Mark Kurlansky

An in depth look at the threat to the world's fish and how their disappearance would affect the biodiversity of the planet. The text is intermixed with an eleven part graphic short story.

## **Green Careers: You Can Make Money and Save the Planet**

By: Jennifer Power Scott

The eco-job market is BOOMING, big time, all over the world. There are jobs for environmental engineers. Jobs for eco-activists. Jobs for green business experts. Jobs for oceanographers. Jobs for organic chefs. Jobs for you get the picture! Now how about some amazing examples to get you thinking about all the possibilities?
